

# Presenting Skills for Technical Types

## Presenter

Elaine Matchett B.Speech & Audio, MA (Linguistics for the Language Professions)

## Course Structure and Accreditation

The course is offered over 2 consecutive days.

This course has been accredited for 2 CPD credits with the Engineering Council of South Africa

## Course Objective

This two-day workshop is designed to help you become more confident, interesting and effective in your technical presentations. You will learn how to present complex ideas in simple ways that hold your audience's attention and achieve your objectives in your day-to-day presentations to clients and colleagues.

## Who Should Attend

If you are ever asked to stand up and present something in a meeting you should attend this workshop.

Whilst this workshop caters for individuals, team members attending together will gain additional benefit from being able to discuss their joint work during the activities. So bring a teammate!

## Course Content

- The dynamics of presentations
- Audience engagement
- Planning presentations
- Visual Storytelling
- The basics of building slides
- The whole-body presenter

## What to Bring

To maximise the value of this workshop you should come prepared to work on a presentation for one of your projects. If you aren't currently preparing for a presentation, you can bring a project report or proposal to use as content. You will be asked to share your activities with fellow participants so please do not bring sensitive information to the session.

A laptop is advised, but not compulsory. You must bring a hard-copy of your source material with you including any drawings, maps or plans that you think you might need.
